

Office of the Vice President for Research

Animal Care Services

Animal Care Services is available to assist faculty at UConn and UConn Health with animal-related research questions and services, such as animal husbandry and veterinary care for research vertebrate animals.

In partnership with the Institutional Animal Care and Use Committee (IACUC), Animal Care Services has University-wide responsibilities to help faculty with development and review of protocols, facility inspections, and training.

Services Include:

- Veterinary Care
- IACUC Protocol Assistance
- Facility Orientation and Training
- Study and Technical Support
- Husbandry
- On-campus Animal Transport
- Animal Import/Export
- Animal Orders
- Drug Orders

We are here to help!
